

**INTEGRATED SYSTEMS TECHNOLOGY ACADEMY
Technology Education Agreement**

To: _____

(Parent or guardian)

_____ is enrolled in our pre-engineering technology program and will have the opportunity to use various tools and equipment. Additionally, there will be times when dust and various chemicals (paint, solvents, lubricants, cleaning agents, etc.) will be present and/or utilized. Appropriate instruction in the safe operation of tools and equipment is given and close supervision is maintained at all times. Although every precaution is taken to prevent accidents, a certain level of risk is involved due to the nature of the class, the age of the student and the learning environment.

We are asking for your cooperation in impressing upon your child the importance of being careful, listening and following instructions. We believe this will back up the instruction that is given in school.

We welcome your visit to our school and in the Academy to see our program. These visits may be arranged by calling 429-7472 or by email to the Academy Director.

Thank you very much for your help and assistance in providing your child with the “real world” experience of technology education in a safe working and learning environment.

I have read the above and I understand the type of program that _____ is taking. I will stress the safety aspects of this program to my child and will encourage my child to participate fully.
